Subject: Access to Air Quality Data

Hi Folks,

Mary Kay and I have been discussing the possibility of canceling this meeting since the air quality sampling data is being released on a regular basis. However, since the water quality sampling data issue came up last week and the Union is still not clear if Building Management is sampling on a regular basis and planning to timely share the data with GSA and EPA or if GSA/EPA is still negotiating with Building Management on water quality sampling, the Union wants to move forward with this meeting as relevant and critical.

Sincerely,

Mike
